

Astronomdagarna 2019, Albanova Stockholm
Oskar Klein Auditorium

Thursday, October 24

- 11:30 Reception desk opens (level 5)
12:30 Welcome. Jesper Sollerman: *The Swedish Astronomical Society*
12:50 Invited: Jens Jasche (SU OKC): *Large-scale dynamics of the Universe*
13:10 Joel Johansson (UU): *Four ways of looking at a supernova: resolving the multiple images of iPTF16geu*
13:25 Mattia Bulla (Nordita): *Electromagnetic counterparts of gravitational-wave events: linking models to observations*
13:40 Ana Sagues Carrecedo (SU OKC): *Detectability of Kilonovae with Zwicky Transient Facility*
13:55 Dennis Alp (KTH): *X-Ray and Gamma-Ray Emission from Core-collapse Supernovae*
14:10 Poster presentations #1
14:40 Historical flashback #1: *Swedish astronomy in 1919*
14:45 ——— **Coffee** ———
15:15 **Manne Siegbahn Memorial Lecture:** Fiona Harrison (Caltech). *Science Highlights from the Nuclear Spectroscopic Telescope Array (NuSTAR): Bringing the High Energy Universe into Focus*
Reception (level 3)
16:30-18:00 Demonstrations by *Vetenskapens hus* – the House of Science: *Astronomy activities for schools and other fun things* (Albanova main entrance)

Friday, October 25

- 08:30 Reception desk opens (level 5)
09:00 Invited: Sofia Ramstedt (UU): *Binary interaction in evolved stars studied with ALMA*
09:20 Sara Bladh (UU): *Mass loss in metal-poor AGB stars*
09:35 Andreas Korn (UU): *New abundances for old stars*
09:50 Torbjörn Sundberg (FOI): *Space situational awareness in the era of mega-constellations*
10:05 Poster presentations #2
10:45 Historical flashback #2: *The first female academic astronomers*
10:50 ——— **Coffee** ———
11:20 Invited: Jaime de la Cruz Rodríguez (SU ISP): *Chromospheric heating of the Sun*
11:40 Carlos José Díaz Baso (SU ISP): *Deep Learning in Solar Physics*
11:55 Dan Kiselman (SU ISP): *The European Solar Telescope*
12:10 Karin Lind (SU Astronomy): *Galactic archaeology and stellar physics with the GALAH survey*
12:25 Sara Rezaei (CTH / MPIA): *3D map of the dust distribution towards the Orion-Eridanus superbubble with Gaia DR2*
12:40 Tanja Nymark (VH) / Urban Eriksson (Högskolan i Kristianstad): *The Star-Spotting Experiment - Measuring Light Pollution*
12:55 ——— **LUNCH BREAK** ———
14:30 Invited: Carina Persson (CTH): *On exoplanets and the CHEOPS mission*
14:50 Michiel Lambrechts (LU): *How the radial pebble flux determines a terrestrial-planet or super-Earth growth mode*
15:05 Alexander Mustill (LU): *White dwarfs and dead planetary systems*
15:20 Eva Wirstrom, Per Bjerkeli (CTH): *Water on the Galilean moons as observed with JUICE/SWI: 3D radiative transfer predictions*
15:35 Katrin Ros (LU): *Icy pebble growth at the water ice line in protoplanetary discs*
15:50 Sweden's exoplanet: the shortlist
15:55 Historical flashback #3: *How to get famous – Swedish names in space*
16:00 ——— **Coffee** ———
16:30 Invited: Emiliya Yordanova (IRF-U): *On space weather*
16:50 Invited: Simona Pirani (LU): *The early migration of Jupiter*
17:10 Brian Thorsbro (LU): *Clues to galaxy formation from chemical abundances of stars in the Galactic center*
17:25 Jouni Kainulainen (CTH): *Towards a new generation of star formation rate models*
17:40 Jonathan C. Tan (CTH): *Formation of Supermassive Black Holes in the Early Universe*
17:55 ——— **END** ———
18:30 **Fabulous dinner** at Albanova (level 3)

P.T.O.

Astronomdagarna 2019 are organised by the Department of Astronomy of Stockholm University, The National Committee for Astronomy, and the Swedish Astronomical Society

Astronomdagarna 2019, Albanova Stockholm
Oskar Klein Auditorium

Lördag 26 oktober

09:30 Välkomna till Svenska astronomiska sällskapetets 100-årsfirande

09:35 Inbjuden talare: Johan Kärnfelt (GU): *Ur Svenska astronomiska sällskapetets historia*

10:05 Erik Zackrisson (UU): *Virtual reality, gamification och spelbaserad inläring i astronomiundervisning.*

10:25 Cecilia Kozma (VH): *Stockholms gamla observatorium som en utbildningsresurs*

10:45 Utdelning av Rosa Tengborgs ungdomsstipendium.

10:50 Jennifer Andersson och Måns Holmberg (AU): *Astronomisk ungdom*

11:10 Lars Hermansson (UAA): *Modern amatörastronomi*

11:30 ——— **LUNCHPAUS** ———

13:00 Inbjuden talare: Gustav Holmberg (GU): *Svensk amatörastronomi under 100 år*

13:30 Utdelning av bidrag från Planetariefonden. Presentation av projekt.

13:40 Margareta Malmort (Rymdblick): *Astronomi för yngre barn*

13:50 Gösta Gahm (SU): *Sweden Solar System*

14:10 Charlotte Helin och Arne Sikö (HAS): *Stjärnor och Science Safari*

14:30 100-årsfirande med tårta och kaffe

15:30 **Nordenmarkföreläsningen 2019.** Gabriella Stenberg Wieser (IRF-K): *En rymdforskarens vardag*

16:30 ——— **SLUT** ———

Astronomdagarna 2019 arrangeras av Institutionen för astronomi vid Stockholms universitet, Nationalkommittén för astronomi samt Svenska astronomiska sällskapet.

Astronomdagarna 2019 are organised by the Department of Astronomy of Stockholm University, The National Committee for Astronomy, and the Swedish Astronomical Society
